PREFACE.

The numerous inquiries that have been made, subsequent to my father's decease, for the first Edition of this Book, have induced me to offer a new and more copious edition of it to the Public. Several years having elapsed since the first publication of this Work, and few of the original Copies now remaining, the expediency of printing an entire new edition, in preference to a continuation of the old one, must appear obvious; as, by the former method, I am enabled not only to correct the general inaccuracies incidental to a work of this nature, and which the lapse of a few years unavoidably occasions, but also to avail myself of the suggestions of my friends, and make such additions or alterations in the plan as appear best calculated to increase its

usefulness. How far I have succeeded in this endeavour, the public will be enabled to judge.

The most essential alterations are, the revision of the whole of the Shipping, and complete Indexes to the Ships' Names, Commanders, and Officers, with the addition of the Surgeons and Pursers, separately, and alphabetically arranged, by which means a ready facility is afforded of finding the name, and also the ships to which they have belonged for the space of twenty years.

I have continued, as in the former edition, the Acts of Parliament relative to the taking up and tendering of ships for the Company's Service; also the Prices of Accepted Tenders, since the new system of free and open competition, continued to the latest period, for the use of Managing Owners. The Company's Regulations respecting Private Trade Indulgence, Qualifications, &c. are inserted entire, without contractions; other regulations of inferior importance have been abridged, but in such a manner as to be perfectly intelligible, and not materially to increase the bulk of the book.

From the great length of time elapsed since Mr. Cartwright's work was published, few copies are existing, which is much to be lamented; and it

being generally acknowledged of the greatest usefulness to commanders and others in the Company's service, the want of it is universally felt, from the numerous alterations occurring within these few years. I have been requested to insert many extracts from the Company's instructions to commanders, which more particularly relate to their officers' information, requiring to be put in force and accomplished by them; in order that no one may err, as instances of deviations have occurred from the want of knowing these regulations. The commander will also have part of his circulating instructions *in a small compass*, especially those which require his attention while fitting out the ship. The extracts from the bye-laws, clauses of the charter-party, and acts of parliament, are considerably abbreviated; but those are only inserted which commanders and others ought always to have more immediately under their notice.

The above are the most prominent improvements made in the present volume, and that need a minute detail; others of a more general nature might be enumerated, which I pass over. An elaborate preface is unnecessary to a work whose obvious tendency is usefulness. There is one circumstance, however, to which I would ad-

vert—it is the length of time this work has been in the press: most of my friends who have experienced disappointment in this respect, are aware of my numerous avocations, and I anticipate their candour will attribute this circumstance to its right cause, namely, a desire to spare neither time, pains, nor expence in rendering it worthy of their patronage.

HORATIO C. A. HARDY.

Jerusalem Coffee House,
23, February, 1811.

TO THE HONORABLE

Committee of Shipping,

OF THE

HONORABLE EAST INDIA COMPANY.

HONORABLE SIRS,

I HUMBLY beg leave to express my warmest acknowledgments, and liveliest emotions of gratitude, for the very great distinction you have had the goodness to confer upon me, by permitting me to inscribe the following pages to your Honorable Committee.

The difficulties attending the original compilation of this work must have been manifold, and could not have been completed without inaccuracies; this Edition,

I presume to hope has been rendered worthy of your Honorable Patronage, and my object attained—viz. That the Commanders and Officers may be fully acquainted with your Instructions and Regulations, and a sufficient Book of Reference for all those concerned with the Honorable Company's Maritime Service.

I have the Honor to be,

with the greatest Respect,

HONORABLE SIRS,

your most obedient,

and Humble Servant,

HORATIO CHARLES HARDY.

Jerusalem Coffee House,
23, *February*, 1811.

ABSTRACT

Of an Act of the 39th of Geo. III. Chap. 89, for regulating the manner in which the United Company of Merchants of England, trading to the East Indies, shall hire and take up Ships for their regular Service.

THAT from and after the 12th of July, 1799, the United Company of Merchants trading to the East Indies, or their Court of Directors, shall employ in their regular service no ships but such as shall be contracted for to serve the said Company, as they shall have occasion to employ them in trade and warfare, or any other service, for six voyages to and from India or China, or elsewhere, within the limits of the said United Company's exclusive trade; and that, from time to time, whenever the said United Company shall have occasion to cause any ship or ships to be built for their service, the Court of Directors of the said United Company shall give notice thereof by public advertisement, and therein state the burden of the ship or ships wanted, the dimensions or scantlings of timbers and planks, number of guns, manner of building, providing, furnishing, and storing such ships, the time to be allowed for building (which shall be as long as reasonably may be), and other particulars, necessary to enable persons to judge of the expence thereof, and the proper rate of freight for such ships respectively, or shall refer to and give information of all such particulars by their proper officer; and the said advertisement shall fix a time (not less than four weeks from the publication thereof) for receiving proposals in writing, sealed up, for building and freighting the same to the Company, such proposals to specify the lowest rates of freight, or, if the Company shall require it, of freight and demurrage in time of peace, required for such ships for six voyages to and from India or China, or elsewhere, within the limits of the Company's exclusive trade, to be employed in trade and in warfare, or otherwise, as shall be thought proper by the Company, if the said ships respectively shall so long be fit for the Company's service; and that all the tenders or proposals which shall be made in pursuance of such notices, shall be put into a box, locked and sealed, which shall not be opened, except publicly in a Court of Directors, and the contents of such proposals respectively shall be entered in a book, and the proposals offering the lowest peace

freight or peace freight and demurrage as the case may be, shall be accepted, without favor or partiality; and in case more ships than shall be wanted shall be tendered to be built at the same low freight, then the Court of Directors shall determine which of the said proposal or proposals shall be accepted.

II. And be it further enacted, that over and besides the peace freight and demorage herein-before mentioned, the Court of Directors shall be at liberty to make such agreements with the owners of the said ships, either from voyage to voyage, or for the whole term of the said ship's being engaged in the said Company's service, for the ascertaining and payment of the additional charges arising to the said owners in time of war and hostilities, or preparations for war and hostilities, as the said Court of Directors shall think right and just.

III. Provided always, and be it further enacted, that it shall be lawful for the said Court of Directors, if they shall see fit, to advertise for and receive proposals, and enter into agreements, for ships to be built for the service of the said Company for six voyages, at permanent rates of freight and demorage for time of peace, and also at established rates of additional freight and demorage to be paid during the present war, and that in that case they shall be at liberty, and are hereby required to accept such proposals as, both circumstances being considered, shall appear upon the whole to be the lowest and most for the advantage of the said United Company, without favor or partiality, and to enter into permanent agreements accordingly; and in case two or more proposals shall offer terms equally advantageous, the said Court of Directors shall determine which of them shall be accepted.

IV. Provided also, and be it further enacted, that nothing herein contained shall extend, or be construed to extend, to oblige the said Court of Directors to accept or enter into any agreement, or any proposal or proposals which they, or the major part of them, shall deem to be unreasonable, although such proposal or proposals may be the lowest and the most advantageous which may be offered.

V. Provided also, and be it further enacted, that in case any regular ship which, since the 20th of March, 1796, hath been engaged in the regular service of the said United Company, or which now is, or hereafter shall be engaged in the said service for six voyages, hath been, or shall be, lost or captured before the completion of her fifth voyage, if upon a

full investigation of the circumstances of such loss by the said Court of Directors, or some committee thereof, the commander and owners of such ship shall be fully acquitted from all imputation of neglect or misconduct in respect of such loss, in the opinion of eighteen Directors, at least at a court specially assembled for the purpose of taking the said commander's and the owner's conduct into consideration; and provided always, that such vote or resolution of the Court of Directors shall be reported to a general court of proprietors, and shall after such report be confirmed by way of ballot by three parts in four of the proprietors assembled in general court specially convened for that purpose, whereof eight days' previous notice of the time and purpose of such meeting shall be given in the London Gazette; and if such commander shall be then living, or if he should have lost his life, or have been absolutely disabled from further service on the occasion which produced the loss of the said ship, and the chief officer of the said ship should have exerted himself honorably for her defence and safety, either in fight or distress at sea, and shall be acquitted in manner herein-before mentioned, from all imputation of neglect or misconduct in respect of such loss, and such acquittal shall also be confirmed in manner herein-before mentioned, then it shall and may be lawful for the Court of Directors to agree with the owners of such ship so lost to build another ship for the service of the said Company, to be employed by them at the same freight and demorage, and upon the same terms for and on which such lost ship was originally taken up for the number of voyages which such lost ship had not completed of the number of voyages originally contracted for, so as the owners shall agree that, at the expiration of the remaining voyage or voyages, such new ship shall continue in the service of the said United Company until she shall have performed six voyages," which subsequent voyages shall severally be performed at the lowest rate of freight and demorage, either in peace or war,' which shall be payable in respect of the ship of a similar description as to the equipment contracted for last, before the said ship shall proceed upon each of the said subsequent voyages: provided always, that such ship so rebuilt shall be commanded in the first instance by the captain of the former ship, if he be able to serve, and failing of him by the said chief officer of the former ship, if he be able to serve.

VI. Provided also, and be it further enacted, that it shall and may be lawful for the Court of Directors of the said United Company, or their servants abroad, in cases of un-

foreseen exigency, to hire ships for any particular service; and in cases of ships so hired, public notice shall be given by advertisement of the ships or tonnage wanted, and the service required, fourteen days at least previous to the time appointed for taking up the same; and the proposals to be made in pursuance of such advertisements shall be put into a box locked and sealed, which shall not be opened, except publicly in a Court of Directors, or by the Governor and Council, where the contract shall be made in any of the Company's settlements in India, and then the lowest tender or tenders shall be accepted, without favour or partiality, if it shall be deemed reasonable, and if upon a due examination and survey the ship or ships tendered shall appear to be in all respects fit for the service required.

VII. Provided always, that nothing herein contained shall extend, or be construed to extend, in any ways to relate to ships or vessels hired or taken up or employed as packets, or any of the ships or vessels belonging to or employed in the marine war establishment of the said United Company in the East Indies; but it shall and may be lawful for the said United Company, and their Court of Directors and servants abroad, to hire, take up, and employ vessels for these purposes only, in such manner as they shall see fit.

VIII. And be it further enacted, that all and every, and so much and such part of the bye laws, rules, and regulations of the said United Company, and of their Court of Directors, now in force, and hereafter to be made, any way relating to the shipping concerns of the said Company, and to the commanders and officers in their service, which are not, or shall not be inconsistent with, or repugnant to the provisions hereby enacted, shall remain and be of the same validity, force, and effect, and shall be observed in like manner, to all intents and purposes, as the same bye laws, rules, and regulations, or such parts thereof as aforesaid, would have been in force, and ought to have been observed, if this act had not been made; or to restrain the said Company from repealing or making any bye laws, so as they shall not be inconsistent with the provisions herein contained; this act, or any thing herein contained to the contrary thereof in any wise notwithstanding.

Abstract of an Act to explain and amend an Act of 39 *Geo. III. passed June* 24, 1803, *revived* 12 *July*, 1806; 46 *Geo. III. Cap.* 85; *and to continue until March* 25, 1813.

WHEREAS by an act passed in the Thirty-ninth year of his present Majesty's reign, intituled, "An Act for regulating the Manner in which the United Company of Merchants of England trading to the East Indies, shall hire and take up ships for their regular Service;" it is enacted, that from and after the passing of that act, the said United Company, or their Court of Directors, should employ in their regular service no ships but such as should be contracted for to serve the said Company, as they should have occasion to employ them, in trade or in warfare, or any other service, for six voyages to and from India, China, or elsewhere, within the limits of the said United Company's exclusive trade; and that from time to time, whenever the said United Company should have occasion to cause any ship or ships to be built for their service, the Court of Directors give notice thereof by public advertisement in manner therein mentioned, and that the said advertisement should fix a time, not less than four weeks from the publication thereof, for receiving proposals in writing, sealed up for building, and freighting the same to the Company, such proposals to specify the lowest rates of freight, or if the Company should require it, of freight and demurrage, in time of peace, required for such ships, for six voyages to and from India or China, or elsewhere within the limits of the Company's exclusive trade, to be employed in trade and in warfare, or otherwise, as should be thought proper by the Company, if the said ships respectively should so long be fit for the Company's service; and that all tenders and proposals which should be made in pursuance of such notices, should be put into a box locked and sealed, which should not be opened, except publicly in a Court of Directors, and that the contents of such proposals respectively should be entered in a book, and the proposals offering the lowest peace freight, or peace freight and demurrage, as the case may be, should be accepted without favor or partiality; and in case more ships than should be wanted should be tendered to be built at the same low freight, then that the Court of Directors should determine which of the said proposal or proposals should be accepted; and by the said act it is provided, that in case any

regular ship, which, since the twentieth day of March, one thousand seven hundred and ninety-six, had been engaged in the regular service of the said Company, or which then was or thereafter should be engaged in the said service for six voyages, had been or should be lost or captured before the completion of her fifth voyage, if upon a full investigation of the circumstances of such loss by the said Court of Directors, or some Committee thereof, the commander and owners of such ship should be fully acquitted of all imputation of neglect or misconduct in respect of such loss, in the opinion of eighteen Directors at least, at a court specially assembled for the purpose of taking the said commander and owners' conduct into consideration, and provided that such vote or resolution of the Court of Directors should be reported to a general court of proprietors, and should after such report be confirmed by way of ballot, by three parts in four of the proprietors assembled in general court specially convened for that purpose, whereof eight days previous notice of the time and purpose of such meeting should be given in the London Gazette; and if such commander should be then living, or if he should have lost his life or have been absolutely disabled from further service on the occasion which produced the loss of the ship, and the chief officer of the said ship should have exerted himself honorably for her defence and safety, either in fight or in distress at sea, and should be acquitted in manner therein-before mentioned from all imputation of neglect or misconduct in respect of such loss, and such acquittal also be confirmed in manner therein-before mentioned, then that it should be lawful for the Court of Directors to agree with the owners of such ship so lost to build another ship for the service of the said Company, to be employed by them at the same freight and demurrage, and upon the same terms for and on which such lost ship was originally taken up, for the number of voyages which such lost ship had not completed of the number of voyages originally contracted for, so as the owners should agree that at the expiration of the remaining voyage or voyages, such new ship should continue in the service of the said United Company until she should have performed six voyages, which subsequent voyages should severally be performed at the lowest rate of freight and demurrage, either in peace or war, which should be payable in respect of the ship of a similar description as to the equipment contracted for last, before the said ship should proceed upon each of the said subsequent voyages; provided that such ship so rebuilt should be commanded, in the first instance, by the

captain of the former ship, if he should be able to serve, and failing of him, by the said chief officer of the former ship, if he should be able to serve: and whereas cases may occur in which ships may be lost, and all on board may unfortunately perish, and the occasion of such loss, and all the circumstances relating thereto, may remain wholly unknown and unaccounted for; and doubts have arisen whether, in such cases, the Court of Directors may lawfully agree with the owners of such ship to build another ship for the service of the said United Company, instead of the ship so lost; and it is expedient that such doubts should be removed; be it therefore enacted and declared by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, That in all cases of the loss of any regular ship as above described, which, since the twentieth Day of March, one thousand seven hundred and ninety-six, hath been engaged in the regular service of the said United Company, or which now is or hereafter shall be engaged in the said service for six voyages, before the completion of her fifth voyage, it was and is lawful to and for the said Court of Directors to agree with the owners of such ship so lost to build another ship for the service of the said Company, of the same class, instead of the ship so lost, in such manner, and subject to such terms, as in the said recited act are mentioned: Provided always, that the impossibility of inquiring satisfactorily into the loss of such ship, from all on board having perished, and the occasion and circumstances relating thereto being wholly unknown, shall be first decided on by eighteen Directors at the least at a court specially assembled for taking the same into consideration; and provided also, that such vote or resolution of the Court of Directors shall be reported to a general court of proprietors, and approved by three parts in four of the proprietors in manner and form as directed by the said recited act.

II. And whereas it has been found that ships may be repaired, and made fit to perform more than six voyages to and from the East Indies in the service of the said United Company, and it will tend to the advantage of the said Company, and to lessen the consumption of ship timber, if the said Company shall hire and take up ships fit to serve them for such additional voyage or voyages, beyond the number for which they have been or may be originally contracted to serve the said Company, as shall not, together with those

previously performed, exceed in the whole eight voyages; be it therefore further enacted, That it shall and may be lawful to and for the Court of Directors of the said United Company, on a public advertisement with four weeks notice, to receive tenders for any ship or ships which have been or may be engaged in the service of the said United Company, and to hire and take up such ship or ships for one or more voyage or voyages to and from the East Indies, in the service of the said Company, beyond and after the performance of the number of voyages for which any such ship or ships respectively have been or shall be contracted to serve the said Company; provided that such ship or ships shall be fit, or can be repaired and made fit, to serve the said Company for such additional voyage or voyages, and the lowest tender to be always accepted: Provided always, that the freight to be paid for any such ship or ships to be taken up for any additional voyage or voyages to be performed after the expiration of the number of voyages for which such ship or ships respectively shall have been contracted for to serve the said Company, shall not exceed the rate of freight paid for such ships respectively, under their respective original contracts, unless the average amount of the freights to be paid for the ships of a similar description taken up to serve the said Company for six voyages at least, under the last advertisement, under which any ship or ships shall have been taken up to serve the said Company for six voyages at least immediately before the receipt of the tenders of ships for an additional voyage or additional voyages, shall exceed such rate; in which case the freight to be paid for ships to perform any additional voyage or voyages may be extended to the said average amount of freight, any thing herein contained to the contrary notwithstanding: Provided also, that in all cases of ships taken up under the authority of the said recited act or of this act, all the provisions and directions contained in the said recited act shall be adhered to, and performed in the same manner as in the said recited act is mentioned and directed, so far as they shall be applicable to the case.

III. Provided always, and be it further enacted, That this act shall continue in force until the twenty-fifth Day of March, one thousand eight hundred and six, and may be altered, varied, or repealed, by any act to be passed in this present session of parliament.

Mem. This Act was revived, and to continue, until March 25, 1813.

50 GEO. III. CAP. 86.

Abstract of an Act to amend two Acts passed in the Thirty-ninth and Forty-Third Years Geo. III. for regulating the manner in which the East India Company shall hire and take up Ships, passed 15 June, 1810.

WHEREAS by an Act of Parliament passed in the thirty-ninth year of the reign of his present majesty, intitled, "an Act for regulating the Manner in which the United Company of Merchants of England trading to the East Indies shall hire and take up ships for their regular service; it is enacted, That from and after the passing of that act, the said United Company or their Court of Directors should employ in their regular service no ships but such as should be contracted for to serve the said company as they should have occasion to employ them in trade and warfare, or any other service, for six voyages to and from India or China, or elsewhere within the limits of the said United Company's exclusive trade, in manner in the said act mentioned; which act was explained and amended by an act of parliament passed in the forty-third year of his present Majesty: And whereas it is expedient that the Court of Directors of the said United Company should be empowered to hire and take up, for their regular service, ships already engaged or hereafter to be engaged in the service of the said United Company, in the manner provided by either of the said acts, for the further service of the said United Company and also that they should be empowered to take up by private contract, ships engaged in his majesty's transport or other service, to carry convicts or stores to New South Wales, the Cape of Good Hope, or Ceylon, for the purpose of bringing home cargoes from China or India for one voyage only; be it therefore enacted by the King's most excellent Majesty, by and with the advice and consent of the Lords spiritual and temporal, and commons, in this present parliament assembled, and by the authority of the same, That it shall and may be lawful to and for the Court of Directors of the said United Company, by public advertisement, to hire and take up for the regular service of the said United Company for such number of voyages to and from India or China, or elsewhere within the limits of the exclusive trade of the said United Company, as the said Court of Directors shall see fit, beyond and after the Performance of the number of voyages

for which any such ship or vessel respectively have been or shall be contracted to serve the said Company, provided that such ship or ships shall be fit or can be repaired and made fit to serve the said Company for such additional voyage or voyages: Provided always, that the freight to be paid for any such ship or ships to be taken up for any additional voyage or voyages, to be performed after the expiration of the number of voyages for which such ship or ships respectively shall have been contracted for to serve the said Company, shall not exceed the rate of freight paid for such ships respectively under the last contracts respectively by which they shall have been engaged in the service of the said United Company, unless the average rate of freight to be paid for the ships of a similar description, which shall have been taken up to serve the said Company for six voyages at least, in consequence of the advertisement under which any ship or ships shall have been taken up to serve the said Company for six voyages at least, which shall have been published last immediately before such contract for any additional voyage or additional voyages shall be entered into respectively, shall exceed such rate, in which case the freight to be paid for ships to perform any additional voyage or voyages may be extended to the said average rate or freight, any thing herein contained to the contrary notwithstanding: Provided also, that in all cases of ships taken up under the authority of this act, all the provisions and directions contained in the said recited acts shall be adhered to and performed in the same manner as in the said recited acts are mentioned and directed, so far as they shall be applicable to the case.

II. And be it further enacted, that it shall and may be lawful to and for the said Court of Directors of the said United Company from time to time to hire and take up by private contract, without advertising, any ship or ships engaged in his Majesty's transport or other service to carry convicts or stores to New South Wales, the Cape of Good Hope, or Ceylon, for the purpose of bringing Home Cargoes from China or India, at such rate of freight and demurrage as they shall judge to be reasonable, so as no such ship shall be hired or taken up for more than One Voyage.

hereas the Directors of the East India Company have re-
sented to us the very serious losses which the Company has
tained in their shipping, and have stated it, as their opinion,
these calamities have arisen principally from the very in-
ient manner in which their ships were manned, in conse-
nce of the great number of men impressed from them for his
esty's service, consisting generally of their best sailors, and
uently of their Petty Officers, without whose assistance the
s could not possibly be navigated with safety; we have taken
same into consideration, and have thought proper to estab-
a regulation, with respect to impressing men from the ships
nging to the East India Company, which is contained in the
exed Regulations, wherein is specified the number and des-
ation of persons to be protected in each class of ships, and
number of men which may be impressed from the remaining
t of the crews, out of the said ships, according to their re-
ective tonnage, on their arrival within the limits of your com-
nd in the Indian Seas; you are, therefore, hereby required
d directed to pay most particular attention to the aforesaid
egulations, and to give positive directions to the several Cap-
ins and Commanders under your orders, to conform themselves
ictly thereto; and whenever any Officer in his Majesty's service
all impress men from any of the Company's ships, he is to certify,
the back of the protection, the name, description, and num-
ber taken by him for his Majesty's service, in order to prevent
a greater proportion being impressed from any ship, than that
prescribed by the present Regulations, by any Officer, or Offi-
cers, who may subsequently visit the said Indiamen for the
same purpose.

By command of their Lordships,
(Signed) JOHN BARROW

To the Commanders in the Honorable Company's Service.

SIRS,

The Right Honorable the Lords Commissioners of the Admiralty having been pleased to establish certain Regulations, respecting Impressing Seamen from the Company's ships, I am commanded by the Court of Directors to transmit you a copy of the said Regulations, together with a copy of their Lordships' Order to the Commander in Chief on the Indian Station, enjoining him to take care that these Regulations be strictly enforced, and to acquaint you, that it is the Court's positive order, that yourself and Officers do, upon all occasions, behave with the utmost attention and respect to His Majesty's officers, in the execution of their duty, and, upon no consideration, to refuse to muster your ship's company, or to practise any deception or concealment whatever, when your ship is visited by His Majesty's Officers.

The Court further direct, that, in the event of His Majesty's Officers acting contrary to the above regulations, that you do, upon no consideration, offer any resistance to their authority, but report the particulars to the Governments in India; or should such circumstances take place at a distance from any Presidency, that you then represent the irregularity to the Commander in Chief of His Majesty's Naval Forces, or Senior Captain on the Station where you may then be, transmitting also the particulars of your complaint to the Governor and Council of the first Presidency at which you may arrive.

The Court likewise direct me to acquaint you, that, should any wellfounded complaint be made against yourself or officers, for having acted in disobedience of these orders, that the persons so offending will, most assuredly, experience the severest mark of the Court's displeasure.

The Court also direct, that you communicate these instructions to your Officers, in such pointed terms, that no one may plead ignorance thereof; and the Court will hold you responsible, should any misconduct, on their part, have been occasioned by your neglecting to acquaint them therewith.

The Court lastly commands me to acquaint you, that a copy of these Instructions has been transmitted to the Lords Commissioners of the Admiralty.

I am,

SIRS,

Your most obedient Servant,

East India House,
the

The Court permit the Commanders and Officers of each Ship to bring Piece Goods, on paying the Customs, and Three Pounds per Cent. for Warehouse-room, &c. so long as the Court shall think proper to allow Traders, under the Act of the 33d George III. Cap. 52, to import the same.

And the Court declare, That in case the Ship does not in the Whole, exceed the Quantity of Tea, or the total Tonnage allowed, no Charge shall be made for any particular Person's Exceedings.

All the above Articles are to be included in, and reckoned as a Part of the Tonnage allowed as before-mentioned: and in case of any Exceeding in the said respective Tonnage so allowed, the Court of Directors will charge a further Duty, over and above all other Duties, of Forty Pounds for each Ton, and so on in Proportion for a greater or less Quantity.

The Commanders and Officers shall be at liberty to pay any Part of the Produce of their outward-bound Adventure into the Company's Cash, in India, for which they shall have Certificates granted them on the Court of Directors, at the usual Rates of Exchange, not exceeding Five Thousand Pounds Sterling during the Course of the Voyage, to be divided among them, in the same Proportions as are above settled in respect to their Private-Trade outwards.

Exclusive of the above Allowance of Private-Trade to the Commanders and Officers, as the Company do not, at present, import any China-Ware on their own Account, they do, on their Part, permit the Commanders and Officers to import that Article, during the Court's Pleasure, provided it is brought as a Flooring to the Teas, and does not exceed in height Thirteen Inches; subject to the following Limitations:

A Ship of 800 Tons, not to exceed	20	Tons.
Ditto 1200 ditto	30	
Ditto 1400 ditto	40	

Any Quantity brought beyond these Proportions will be invariably charged at the Rate of Thirty Pounds per Ton.

The Court also, on their Part, permit each Commander to import Two Pipes of Madeira Wine; which Two Pipes are not to be reckoned as Part of the above Allowance.

And as an Encouragement to the Commanders and Officers to do their utmost to lade all Goods tendered by the Company's Agents, and to bring home as much surplus Tonnage as their Ships will safely and conveniently stow, the Court, on their Part, permit the further Importation of Goods on account of the Commanders and Officers, according to their respective Privileges, not exceeding, in the Whole, Thirty Tons for each Ship, provided such Goods are stowed in Places not allotted to the Company's Cargo, or that they have not Goods tendered to them by the Company's Agents in India or China, or in the Event of the Ship not bringing home her expected Quantity of Goods, they produce satisfactory Proof to the Committee of Private-Trade, that such Deficiency was not occasioned through any Default of the Commander or Officers; but the Court have resolved that the Article of Pepper shall not be allowed to be laden in Part of the Thirty Tons above-mentioned.

That if a Commander should, in any Instance, act in disobedience to the before-going Regulations, but more especially by increasing the stated Number of Midshipmen, he be irrevocably suspended the Company's Service for the Term of Three Years.

That any person borne on the Ship's Books as Part of her Complement, who shall be discharged in India, China, or St. Helena, without the Permission of the Company's President and Council, or other Agents, in Writing, or collusively permitted to leave the Ship, shall be considered as coming under the Description of the Clause in the Charter-party, and the Commander, in Addition to that Penalty, shall forfeit the Sum of Three Hundred Pounds.

That a Commander who shall carry out or bring home any Passenger or Person without the Leave of the Court of Directors, or such Persons as are empowered by the Court to grant Permission for that Purpose (such Passengers or Persons not being borne on the Books as Part of the Ship's Company) shall forfeit the following Sums, in addition to the Penalty in the Charter-party, viz.

For a Male or Female Black Servant, being a Native of India or other Country, the Sum of Twenty Pounds.

That in order to prevent the great Expences which have fallen upon the Company by returning Black Servants who have been discharged by their Masters and Mistresses, after they have been some Time in England, and with a View of enforcing the Court's present Orders for taking Bonds in India, as a Security for the Charges attending the return of such Servants, these Bonds be transmitted to the Commander of the Ship on which they are to embark, with the Order for his receiving the Servants on Board. That the necessary Directions be transmitted to the several Presidencies, to Canton, and St. Helena, accordingly. That the Commanders be enjoined to refuse receiving the Servants, unless the Order is accompanied with the Security Bonds; and if a Commander disobeys the Court's Commands in this Instance, he be subject to the same Penalties as for bringing home Servants without Leave. That this Court will consider every Commander as guilty of an Evasion of their Orders, and consequently liable to their Displeasure and to the before-mentioned Penalties, who shall enter on his Books any Person not absolutely intended as a Part of the Ship's Company, or shall connive at or suffer any one to proceed on board his Ship under a feigned or fictitious Character.

EXTRACTS from the Instructions to a Commander; which particularly relate to the Officers, Surgeon, and Purser, and intended for their information.

1. That the bulk-head of the round-house be placed on the beam immediately before the mizen-mast.

That the wheel be placed within one foot of the bulk-head; except in those ships where the accommodation ladder is abaft the wheel, and that, in that case, the wheel be not more than two feet eight inches from the bulk-head.

That the round-house deck be not brought more than two feet and a half before the fore-part of the wheel, to shelter the men at the helm; and that no cabin, inclosure, or projection whatever, be built under the round-house deck before the bulk-head.

That not any partitions or cabins be allowed in the steerage, before the bulk-head of the great cabin:—That your officers have canvas births only, laced down to battens on the deck, with upright stanchions, one cross-piece, and a small door, with canvas pannels:—That the battens do not exceed one inch square nor the stanchions or cross-pieces two inches square each; and that the births be made without pannels, and the canvas to roll up.

That the following officers' births, fitted as above mentioned, and those only, be built upon the gun-deck, viz.

One on the starboard side, from the fore part of the aftermost port to the fore-part of the second port from aft, eight feet broad in the clear upon deck, for the Chief Mate.

One on the opposite side, of the same length fore and aft, and seven feet six inches broad in the clear upon deck, for the Second Mate.

Two between the second and third ports, and two between the third and fourth ports, each six feet long, and seven feet broad in the clear upon deck, for the Third and Fourth Mates, Purser and Surgeon.

Two others between the fifth and sixth ports, each six feet long and six feet six inches broad in the clear upon deck, for the Boatswain and Carpenter.

That no alteration be made in the above arrangements during the course of the voyage.

That you do not, upon any consideration, partition off your great cabin, or make any division of the same, without the special orders of the Committee.

2. That yourself and officers do strictly conform to the Company's regulations respecting uniforms, and do not, upon any account, appear in boots, or black breeches and stockings, except in cases of deep mourning. That you appear in your dress uniform when attending the Court of Directors upon any occasion whatever, and in your undress uniform when attending Committees; except on such days when you may be in attendance on the Court of Directors in your dress uniform. That your officers do always appear in their uniforms, when attending the Court of Directors or Committees.

3. That such of your Mates as have not been already instructed in the method of finding the longitude of a ship at sea, by lunar observations, do immediately perfect themselves therein, under *Mr. Lawrence Gwynne*, previous to their attending the Committee to be examined for their respective stations; and that they do produce to the Committee a certificate from one of those gentlemen, of their being qualified in the above method.

4. That your Surgeon and Surgeon's Mate do each produce a certificate from the Court of Examiners of the Royal College of Surgeons, and also from the Physician appointed by the Company, of their being qualified for such station respectively.

5. That your Gunner and Gunner's Mate do severally produce a certificate of having been examined and approved of by the Company's Master-Attendant.

6. That you present your four sworn officers for the approbation of the Committee, previous to your ship coming afloat; and not any part of the Company's cargo will be sent on board your ship, until all those officers shall have been examined and approved by the Committee, and sworn in before the Court of Directors: but for the convenience of your Owners, in sending on board the ship's stores, the Company's Surveyor will be sent on board when one officer shall

have been approved and sworn in, as before mentioned, on the day appointed for your ship coming afloat, or on the first day of the springs appointed for that purpose, but not sooner.

7. That your Chief Mate, after having been sworn in before the Court of Directors, do apply to Messrs. Gow and *Foster*, previous to his repairing to his duty on board, for their instructions, relative to entering, jointly with yourself, into a certain bond, which is required at the Custom House.

8. That from the time of any part of the Company's cargo being received on board your ship, your Chief or Second Mate, with the other Sworn Officers, do give constant attendance on board.

9. That if any copper should be laden on board your ship on the Company's account, you observe the following regulations, which the Court of Directors have adopted, for preventing deficiencies in the delivery of that article, viz.

"That the copper be weighed at the merchant's house or wharf, in the presence of the Purser, one of the Company's officers from the East India Wharf, and the merchant's clerk, as hitherto practised; and that an iron hoop be fixed on the inside of each case. That the gross weight, and the tare, be cut on the case; and that an account be taken, at the same time, of the number of each package, with the gross weight, tare, and nett weight thereof, and number of pieces contained in it. That it be recommended to the owners to cause each package to be re-weighed, immediately on its being received on board the ship, in the presence of the commanding officer, the master of the craft, the surveyor who had charge of her, and the surveyor on duty on board the ship; and in case the gross weight of any package should differ from the gross weight marked thereon, such package be returned to the Company's Wharf by the commanding officer, with an account of the number of it, and the weight as taken on board the ship, signed by him, and by the other persons who saw it weighed; and that, on such occasion, the Warehouse-keeper at the Wharf do examine the package, and take such other steps as may discover the cause of such difference in weight, and immediately report all the particulars he shall obtain to the Committee of Shipping; unless it shall clearly appear to him to have been owing to a mis-

take in the original weight, which may be easily discovered by the condition of the chest, and the number of pieces of copper contained in it.

"That it be also recommended to the Owners to give orders that the cases of copper be weighed again, when delivered out of the Ship in India, and an account of the weights taken.

"That directions be sent to the several Presidencies, to cause the copper to be weighed immediately on its being landed; and that the Commander, or some person appointed by him on the part of the Owners, be required to attend the weighing. That whenever it shall be found impracticable to weigh it immediately, it be secured under two locks; and that the Commander, or person appointed by him, have possession of the key of one of the locks, till the whole of the copper shall have been weighed.

"That if any package shall, on weighing, appear deficient, the number of such package, with the gross weight and tare, as marked on the outside, be stated in the account deficiency tendered to the Commander for his signature, and that he be allowed to make such reasonable objections to the account as he may think proper: and that the Import Warehouse-keeper do certify on the face of the account, whether such objections are well-founded or not, and to add such remarks thereon, as shall enable the Committee of Private-Trade to determine whether the deficiencies should in justice be charged to the Owners or not.

10. That if any coral beads should be freighted on your ship, under the permission of the Court of Directors, the chests be stowed, according to the former usage of the service, in the bread or gun-room; but upon no consideration in the hold, as the dampness of that part of the ship will occasion the breaking of the strings, a circumstance which cannot fail to be productive of great loss and inconvenience to the proprietors of the coral.

11. That in the event of any Military Stores being sent down to your ships you direct your officers to pay particular attention to, and stow with great care in a dry part of the ship, such packages as are liable to damage, and shall have a Card affixed by the Inspector of Military Stores, describing the particulars of the same.

12. That as chests of the Company's arms have been frequently rendered useless by carelessness in being taken on board, &c., you are to direct your Officers to use every precaution, not only to prevent the chests striking against the ship's sides, or the coamings of the hatchways, but also to be otherwise particularly careful in receiving, stowing, and delivering all such chests of arms as may be laden on your ship on the Company's account. That a number of chests of these muskets be kept at hand, for the purpose mentioned in the sixty-fifth article of these Instructions.

13. That the vessels carrying down stores, of any denomination, for His Majesty's service in the East-Indies, be unloaded immediately on their boarding your ship, and in preference to all other craft which may then be alongside; the vessels with the recruits for the King's or Company's service, and craft with bullion, excepted.

14. That the craft carrying down the Company's cargo be unloaded in preference to those with ship's stores; and that if it should appear that any craft shall have been unnecessarily detained, the Commanding Officer will not only incur the Committee's severe displeasure, but be charged with the amount of the demurrage arising from such detention.

15. That you acquaint me with all such occurrences, during the time of your ship remaining in the river Thames, as you shall think may be necessary for the information of the Committee.

16. That you attend your duty on board your ship, together with all your sworn officers, when proceeding from Deptford or Blackwall to Gravesend, and not absent yourself at that time, on any account, without the Committee's special permission.

17. That if you should neglect to proceed, as above directed in your ship, from Deptford or Blackwall to Gravesend, you will, agreeably to a resolution of the Court of Directors, be fined the sum of fifty pounds, for the benefit of the Poplar Fund.

18. That you repair on board your ship, once a week, while she lays at Gravesend, that you may be enabled to report her condition, whenever examined thereon by the Committee

19. That every exertion be used to enable the ship to leave Gravesend at the period prescribed by the Court; in aid of which, the three shipping days for goods in private-trade will be appointed within twenty-one days from the arrival of your ship at Gravesend, and the whole of the Company's cargo shipped off from the East-India Wharf within the said period.

20. That not any orders will be given for shipping goods in private trade, after the last shipping day; nor will any goods in private-trade be received in future at the East India wharf beyond two days after the date of the shipping order; (Sunday not included.) That you will take particular care to inform your officers of this regulation.

21. That before you will be permitted to take leave of the Court of Directors, a certificate must be delivered to the Committee, signed by yourself, and your Chief and Second Mates, stating the number of deals and quantity of lemon-juice on board your ship, and whether, in the opinion of yourself and Officers, the former is sufficient for the dunnage of the cargo homeward-bound, and the latter for the use of the ship's company on the passage out; and also a certificate of the quantity of water and the principal articles of the wet and dry provisions on board, distinguishing the respective proportions for the use of the ship's company and passengers.

22. That as a report must be made to the Committee by the Company's Surveyor, previous to your taking leave, that your Chief, Second, Third, and Fourth Mates are on board, you are to take particular care that all those officers be on board your ship, on the day previous to that on which you may be appointed to attend the Court of Directors for that purpose.

23. That your ship be cleared out at the Custom-House, on such day as shall be appointed by the Committee.

24. That you repair to your duty on board your ship the day after having cleared out at the Custom-House, and not return to town without the Committee's special permission.

25. That neither of your sworn officers be absent during the ship's stay at Gravesend, after you shall have taken leave of the Court of Directors, nor during your stay at

any of the out-ports: unless any urgent necessity should require an officer's attendance on shore, after the ship's departure from the Hope; and, in that case, such officer be not absent from the ship more than twenty-four hours at a time.

26. That you acquaint your Surgeon and Surgeon's Mate, that it is the Committee's positive orders, that they join your ship previous to her leaving the Hope.

27. That previous to your departure from Gravesend, a book will be transmitted you, for the purpose of entering the accounts of purserage supplied the ship's company, and the account sales of dead men's effects, in the course of the voyage.

28. That at the same time will be forwarded to you a separate book for the Surgeon to keep a journal of his practice, and to record his medical observations during the voyage; and also two other books, wherein are to be entered the transactions which may occur in regard to the military on board your ship.

29. That not any female persons, either relatives or others, do accompany yourself, or any of your officers, petty officers, or seamen, on board your ship, on her passage from Gravesend to the Downs or Portsmouth, without the special permission of the Committee.

30. That your officers be particularly attentive that the recruits do always appear in the several articles of clothing provided for them by the Company. That they likewise be extremely careful, that the recruits do not dispose of their clothes for liquor or otherwise; and that they exert their best endeavours to keep the men quiet, and prevent them making their escape; for which purpose (in addition to the above-mentioned articles of your printed Instructions from the Court of Directors) not any boats be permitted to remain alongside, without being made fast with a chain, and locked, nor suffered to put off from the ship, until they shall have been examined by such persons whom the Commanding Officer may appoint for that particular service. That, as a further security, a quarter watch be kept night and day, and such other precautions taken, as you may think necessary to prevent the loss of the recruits; for, in case of any desertion, yourself, or the officer in charge of the ship, must, agreeably to the above-mentioned Instruc-

tions from the Court of Directors, pay into the hands of the Company's Pay-master, the expences incurred by the Company on the recruits so deserting, unless he can make it clearly appear, to the satisfaction of the Committee, that the same did not happen through any neglect of duty.

31. That, whenever the ship is in port, the Surgeon's journal be deposited in the same place with the ship's log-book, under the charge of the Commanding Officer; but that your Surgeon, or his Mate, have access thereto, to enter the transactions of each day; at other times, the journal is to remain in the possession of the Surgeon.

32. That your ship be regularly pumped out, in the course of every watch, whenever there is sufficient water in the ship to work the pumps, both in the outward and homeward-bound voyage, and regular entries thereof made in the Company's log-book, and likewise in your journal, and those of your Chief and Second Officers.

33. That you and your Officers do embrace every favourable opportunity, in the course of the voyage, to take lunar observations, and that the same be entered in all your journals.

34. You are strictly required to keep up the worship of Almighty God on board your ship every Sunday, when circumstances will admit, and that the log-book contain the reasons for the omission when it so happens; that you promote good order and sobriety, by being yourself the example, and enforcing it in others; and that you be humane and attentive to the welfare of those under your command; the Court have resolved to mulct you in the sum of two guineas, for every omission of mentioning the performance of divine service, or assigning satisfactory reasons for the non-performance thereof every Sunday, in the Company's log-book.

35. When you have received your sailing orders from your Commodore, or any of the Captains of His Majesty's Fleet, you are strictly forbid to sleep out of your ship, nor are you to suffer either of your officers to absent himself more than twelve hours; and it is fully expected, also, that this order be attended to when you have received at Portsmouth, or any other place, your quota of His Majesty's or Company's troops, that tumult and desertion may be prevented to the utmost.

36. We most pointedly direct you to comply with the

covenants in your charter-party, to have the log-book, boatswain's book, medical journal, and recruit-book, kept as directed, as you will be made answerable for any breach of duty in your officers; and by no means to fail in keeping and delivering the abstract of your log with your journals.

37. Your own, Chief, and Second Mate's journals, are to be kept in the fullest and most explicit manner, and not, as is too often the case, a diary only of courses, winds, and weather;—They are to contain also lists of the ship's company, and of all passengers. The Surgeon's journal you are to inspect and sign every month; nor will either their or your journals be received unless kept as directed.

38. Such charts as you may receive from this House are to be returned, at the end of the voyage, with your journals; and the graduated charts for the ship's tract, with variations, longitude by observation and chronometer, you are particularly directed to render as complete as possible; and you are strictly to enjoin your senior officers, and encourage your junior officers, at all times when practicable, to use the lunar observations, to observe the variation of the compass by azimuths and amplitudes, finding the latitude by double altitudes, and every other branch of navigation.

39. We have agreed with the Owners of our ships, that the officers or men belonging to any of them that may be taken or lost, if they desire it, shall be returned to England as passengers, the Company paying two-thirds of the charter-party passage-money, or in proportion, according to the place or time received on board; and you are hereby directed to receive such unfortunate men, and afford them needful accommodation.

40. The Commissioners of His Majesty's Customs having appointed Gravesend, as the place from the arrival at which the Company's ships are to be reported in twenty-four hours, you are therefore strictly enjoined to comply with the said regulation, and come to an anchor in Long Reach, and that you do not leave your ship till her arrival there.

41. Resolved, That the established captains in the service, during their command of extra ships, be considered as the junior commanders, when sailing in company with the regular ships, and rank agreeably to their standing in the

Company's service with extra ships, only with the right of resuming their rank on their commanding a regular ship.

42. The Commander is strictly required to conform to the Company's regulations respecting the Indulgence allowed him and also his Officers, and to observe the following regulations: that the Certificates granted to him and Officers, at the usual rates of Exchange, the Company have agreed to pay one Moiety at 90 days sight, as an encouragement, and the remaining moiety at 365 days sight; and if a part be paid in at one presidency, or none has been paid, you must carry a written evidence with you of the fact, before you will be allowed to pay it any other.

43. You are particularly directed to cause every package in private-trade to be marked with the initials of the name of the persons to whom it belongs. They are to be registered with these marks; the nature of the package, the contents, and quality of the contents; nor will any packages marked sundries be permitted to be claimed. The form of the manifest is annexed; nor will any register in your boatswain's book be admitted, unless made at the place where the goods are received on board, and certified by your officers at the first port you may arrive at, where the Company have any Agent or Factor.

44. Any tea exceeding the value of ten pounds, or any other goods above the value of one hundred pounds, on board the ship unregistered, will be forfeited; and goods of the above value will only be admitted, when the Court have satisfactory reasons assigned for the omission.

45. All orders and instructions received from the Secret Committee, or those of the several Presidencies in India or China or St. Helena, or those received from any of his Majesty's Officers are to be kept in a secure place and their contents kept inviolably secret, and to be all returned to the Secretary on the arrival from the Voyage; and also required to take receipts from the Governors, Secretaries, or proper person, for the several packets committed to your care, and to be produced on the Ship's return.

46. You are positively forbid receiving on board your ship any person whatever, that does not belong to the crew, without a special order, in writing, from those authorized by the Court of Directors, or their Governor

and Council at their Presidencies, to grant such licence; and in the event of your receiving any person at a foreign settlement, or at a place where no such licence can be obtained, you are, on your arrival at one of the Company's settlements, to report what you have done, and wait such orders as you may receive on that head, and both log book and boatswain's book are to contain a sufficient entry of the fact: this has respect to all descriptions of people, and the severest penalties will attach to a breach of this order.

A rate of passage-money having been determined by the Court, you are strictly forbid, at your peril, to refuse passengers who may be ordered for your ship, or that you assess them for their passage beyond the sum specified against their rank.

You are not to receive any black servants in India, as passengers, without a certificate that a deposit has been paid to our agents, to answer any expense we may be at for their maintenance in England and return home, under the penalty of being answerable for them yourself.

The conduct of several passengers has been so highly improper, that we have deemed it necessary to frame a set of regulations, which we trust will preserve good order on board our ships. The rules therein laid down, we expect will be rigidly attended to by yourself; and that you will enforce a strict observance of them by your officers and all your passengers, both in your outward and homeward-bound voyage.

The Sworn Officers of the respective Ships (either lading or unlading) in the Docks, or other Officers authorised by the East India Company to act as such, shall have access to them at all working Hours, leaving their Names and Stations with the Gate Keepers.

In order to prevent the heavy loss that would arise by accidents to Ships fully laden coming into the said Docks, or to provide as much as possible for such Event, should it happen, as well as to render the Bason and Locks less crowded with Ships or Craft, and the Crews within the Dock Premises from being longer therein than is requisite for the safety of their respective Vessels, it is ordained, That no Ship shall be admitted within the Dock or Bason Gates, unless in Cases of Exigency, that is not dismantled to her Lower Masts, and her Guns, Ammunition, Anchors, and Stores delivered, to such extent as the Dock Master shall prescribe.

Every Ship will be unloaded in turn, as she arrives at her Moorings, and is ready to enter the Docks conformable to the Regulations, unless the Court of Directors of the East India Company should otherwise require, or unless it be their repairing Voyage, or that any other Cause, in the Opinion of the Court of Directors, should interfere to prevent.

A report to be made by the Commanding Officer of each Ship, and regularly signed and delivered to the Dock Master, of the Water the Ship has made every twelve hours for three days successively, before she be permitted to enter; and if the Report be incorrect, the Officer signing the same to suffer a penalty of Five Pounds, and the Ship to be the last delivered.

Such Stores as may remain in the Ship, after coming into the Bason, are to be discharged previous to her going into

the inner Dock. On the Ship's arrival in the inner Dock, no Person can have access to her but the King's, Company's Ship, and Dock Officers, on the establishmeut, nor any of these after four o'clock in the Evening.

The Owners being responsible for the safe delivery of the Cargo, they are at liberty to have the Commander, or any of the sworn officers, during working hours, to inspect the Delivery, and to ascertain, in Company with the Dock Officers, the injury (if any) that may appear to have happened during the Voyage, and its cause.

The watering of the Ships, and the lading of them, shall be conformable to their times for coming afloat, and as directed by the Dock Master, any person in the command of Ships either resisting such rotation, or not complying therewith, shall suffer a Fine of Forty Shillings.

The regulations for lading or unlading, established by the Court of Directors, shall be binding on all parties concerned therein, and any person about the Docks, who shall prevent their Execution, shall be liable to a Penalty of Forty Shillings.

Ordered, That no officer be allowed to proceed to his duty on board, until such time as he shall have signed the contract for performing the voyage, and the other covenants stated therein, and shall also have signed a petition for his private trade outward, so far as respects the amount of the tonnage, the particulars whereof must be positively delivered to the officer of the private trade branch, on or before the expiration of four days after the ship shall have arrived at Gravesend; and that in the event of any officer not complying with this order, to be excluded, agreeably to the rules and regulations established by the Court of Directors, December 23, 1794, from shipping any part of his privilege outward.

A CIRCULAR LETTER,

Delivered to all the Officers when being sworn in.

Sir,

The Court of Directors having received frequent information of the illicit trade that has been carried on by some of the commanders and officers of their ships, and others; and being determined to put an end to practices so detrimental to the revenue, the Company, and the fair trader, they hereby communicate for your information a copy of the following advertisement, they have resolved from time to time to circulate in the most public manner possible, both in England, India, or China. If therefore, after this previous warning of their intention, you shall be found guilty of carrying on any illicit trade yourself, or of conniving at the practice in others, you may rest assured that the consequence of the same will be an immediate and irrevocable dismission from the Company's service.

It having been intimated to the Court, that several inconveniences have arisen from the officers in the Company's service not having conformed to the Court's Regulations of the 23d of December, 1794, respecting the shipping of their Private Trade indulgencies, (See page 66.) I am directed to transmit you herewith a copy of those regulations, to which the Court expect you to conform, and are to communicate

such parts thereof to the several tradesmen employed by you in shipping your private trade, as may be necessary for their guidance.

AN ADVERTISEMENT

For the Detection of Illicit Trade.

The Court of Directors of the United East India Company, having received information that great quantities of woollens, camblets, and warlike stores, have been illicitly exported; also great quantities of tea, muslins, china-ware, diamonds, and other merchandize, have been illicitly imported in their ships, and smuggled on shore, to the very great damage of the revenue, the Company, and the fair trader, they do hereby offer and promise a reward to any person who shall make a discovery of such offence, of one half of what the Company shall recover and receive, over and above all other rewards the parties are entitled to by law. Such discovery to be made to Henry Smith, Esq. the Company's solicitor, at Drapers' Hall, London. And the said reward to be paid by the Company's secretary, on the condemnation of the goods illicitly imported or smuggled, out of the produce thereof, on the conviction of any offender, or out of the money the Company shall recover or receive on such conviction, and the name of the informer shall be kept secret if required.

STANDING ORDERS OF THE COURT OF DIRECTORS

AT A COURT OF DIRECTORS,

Held the 11th September, 1776.

ORDERED, That it be a standing order of this Court, that in future, within six weeks after each of the Company's

homeward-bound ship is cleared, the commander and officers thereof be summoned to attend a joint Committee of Private Trade and Shipping, to whom it is referred to make strict inquiry into the reasons of any deviations which shall have been made by such a ship, during the whole course of her voyage; and that the said Committee do, with all convenient speed, report their opinion thereon to the Court.

AT A COURT OF DIRECTORS,

Held the 23d May, 1777.

The Court taking into consideration the mischief arising to the Company by the illicit trading, both outward and homeward bound, of the commanders and officers of ships in the Company's service; and it having appeared, by informations received from the officers of Government, and by other proofs laid before the Court, that such practices are frequently carried on at foreign Ports, or in Ireland, Scotland, or out-ports in this kingdom, to which the ships proceed, contrary to the orders and instructions given to the commanders, or by means of vessels which meet the Company's ships at sea, and there deliver goods to, and receive goods from them:

Resolved, unanimously, In order to detect and bring such offenders to punishment, that it be a standing order of this Court, that the clerk to the Committee of Private Trade do, within four weeks next after each of the Company's homeward ships shall be cleared, collect from the ship's journals, and from letters and other things which shall come to his knowledge, (and which he shall examine for the purpose), an account of all the ship's proceedings, to or towards any port or place, both outward and homeward bound, without or contrary to the Company's orders, or instructions, and of all the ship's deviations from, or loitering in, the course of her voyage, in the English Channel or elsewhere, and do state the same in writing, to the Chairman and Deputy Chairman, and also to the respective Committees of Private Trade and Shipping, in order that such matters may respectively be taken into consideration by the joint Committee of Private Trade and Shipping, pursuant to the standing order of this Court, made the 11th Day of September last. And it is further resolved, That in case the Committee of Private Trade and Shipping shall not, within six weeks after such state laid before them as aforesaid, report to this Court, that such ship's proceeding to such

ports or places, without or contrary to the Orders of the Company, and such deviations or loitering were necessary or prudent for the safety of the ship and cargo, the Company's solicitor shall be informed thereof by the clerk of the said Committee, and he shall forthwith, without further orders, file a bill in the Court of Exchequer against the commander of such ship, and such other Persons as council shall advise to be necessary parties, charging them with having been concerned in illicit trade, and praying a full discovery thereof, and relief for the damages sustained thereby, waving all other penalties, according to act of Parliament made in that behalf, which suit shall not be stopped or stayed by any order or vote of Court, or any Committee thereof.

Resolved, unanimously, That it be a standing order of this Court, that when any suit is ordered by this Court to be brought against any person or persons, on account of illicit trade, upon any information or evidence laid before the Court, the proceedings thereon shall not be stayed, at any time after the next subsequent Court, by an order or vote of this Court, or any committee thereof.

Resolved, unanimously, That upon the arrival of the Company's ships in the river Thames, the clerk of the Committee of Private trade shall forthwith give notice thereof to the master-attendant and surveyor of shipping, and thereupon the master-attendant, or his assistant, or in case they shall be otherwise previously employed, then the surveyor of shipping, or his assistant, shall forthwith repair on board the said ship or ships, before any goods shall be delivered, and shall carefully examine the state and condition of the hold, and of every part of the lower deck, and report to the Committee of Private Trade what vacant space, if any, shall remain therein, that is fit and proper for the stowage of goods; and also whether any packages appear to have been removed, disturbed, or replaced, during the homeward bound passage.

Resolved, unanimously, That if, on examination, it should be reported by the office or officers above mentioned, that any space is left in the hold, proper for the stowage of goods, the commander of such ship shall forfeit and pay to the Company the sum of 100 l. for every sixty cubical feet of such vacant space, unless it shall appear upon the ship's journals, or other authenticated paper, that the said commander, upon his application in writing, to the Governor and Council at the settlement from whence he was last dispatched, or to the Supracargoes in China, was refused a larger quantity of goods; or unless it shall appear to the Committee that such vacancy

had arisen from the settlement of the cargo, or some unavoidable accident during the course of the voyage.

Resolved, unanimously, That the commanders of the Company's ships be directed by the said Committee not to open, nor permit the hatches of their ships to be opened, on their arrival in the river Thames, till the officer or officers abovementioned shall come on board, for the purpose of such examination.

It frequently happening that practices of smuggling by this Company's officers are discovered by his Majesty's officers of the Customs, and suits are brought thereon, which do not come to the knowledge of this Court, and compositions are often made of such suits, very much to the prejudice of this Company:

Resolved, unanimously, That this Company's solicitor do forthwith apply to his Majesty's Commissioners of the Customs, and request that they will be pleased to order their solicitor to give this Company's solicitor an account of all suits now depending, and also from time to time, of all suits that shall hereafter be brought against any of the commanders and officers of this Company's ships, for practices of smuggling of East-India goods, and of all the proceedings thereon, which account the Company's solicitor shall forthwith communicate to the Chairman and Deputy Chairman, and to the respective Committees of Private-Trade and Shipping, in order that they may pursue such measures as shall appear proper.

REGULATIONS,

Respecting the Qualifications of Surgeons, and Surgeon's Mates.

ORDERED, That no person be permitted to proceed as surgeon of any of the Company's regular ships, who shall not have performed one voyage in the Company's service, as surgeon's mate, or acted twelve months in that situation in his Majesty's service in a hot climate, until the persons before mentioned shall have obtained births, with an exception only in favour of such persons who, during the suspension of the standing order before mentioned, have been permitted to proceed as surgeons, without having performed a voyage as surgeon's mate.

That a surgeon of an extra ship, who shall have been previously examined and found qualified; and after having performed a voyage to and from India, shall be considered eligible to proceed as surgeon in the regular service, if, upon the usual

examinations respecting his abilities, he shall then appear qualified for the same.

That the surgeon and surgeon's mate do produce a certificate from the examiners of the Royal College of Surgeons, and also from the Physician appointed by the Company, of their being qualified for such stations.'

Dr. Wm. Dick, Physician to the Company, 8, Hertford-street, May Fair, for examining surgeons and surgeon's mates; and the surgeons are to deliver their medical journals to him on their return home, for examination.

N. B. The surgeons of regular ships are allowed for private trade as follows—To and from China six tons; but in ships for India are allowed six tons outward; and four tons, thirty-two feet, homeward. They are also allowed fifteen shillings per man on the voyage for medicines and attendance upon the military and invalids.

EAST INDIA HOUSE, Aug. 8, 1804

A Letter from Captain Nathaniel Dance Commander of the East India Company's Ship, Earl Camden, was received here this Morning, of which the following is a Copy:

SIR,

For the information of the Hon. Court, I beg leave to acquaint you, that the Earl Camden was dispatched from Canton by the Select Committee, the 31st of January last, and the ships noted in the margin*, were put under my orders, as senior commander; also, the Rolla, Botany Bay ship, and the country ships as per margin, were put under my charge to convoy as far as our courses lay in the same direction. I was also ordered to take under my protection, a Portuguese Europe ship, that was laying at Macao Roads, whose super-cargo had solicited it from the Select Committee.

Our passage down the river was tedious, and the fleet much dispersed; the ships being under the directions of their several Chinese pilots, I could not keep them collected as I wished.

The Ganges, a fast sailing brig, was put under my orders by the Select Committee, to employ in any manner that might tend to the safety or convenience of the fleet, till we had passed the Streights of Malacca: I was then to dispatch her to Bengal.

* Warley, Alfred, Royal George, Coutts, Wexford, Ganges, Exeter, Earl of Abergavenny, Henry Addington, Bombay Castle, Cumberland, Hope, Dorsetshire, Warren Hastings, Ocean.

We passed Macao Roads in the night of the 5th February, and I conceive the Rolla had anchored so near Macao, as not to see the fleet get under weigh and pass through, although at the time I had no idea that could be possible, especially as I saw the Ocean in shore of us getting under weigh, burning blue lights and firing a gun. The Portuguese ship, I suppose, must have been in the same situation as the Rolla.

During the night of the 5th February, I carried an easy sail, and on the following day hove to for above two hours, hoping to see those ships, but there was no appearance of them, nor did they ever join the fleet.

On the 14th February, at day-break, we saw Pulo Auro bearing W. S. W. and at eight *a. m.* the Royal George made the signal for seeing four strange sail in the S. W. I made the signal for the four ships noted in the margin*, to go down and examine them, and Lieutenant Fowler, of the Royal Navy, late commander of the Porpoise, and passenger with me, having handsomely offered to go in the Ganges brig and inspect them nearly, I afterwards sent her down likewise, and from their signals I perceived it was an enemy's squadron, consisting of a line of battle ship, frigates, and a brig. At one *p. m.* I recalled the look-out ships by signal, and formed the line of battle in close order.

As soon as the enemy could fetch in our wake, they put about; we kept on our course under an easy sail. At near sun set they were close up with our rear, and I was in momentary expectation of an attack there, and prepared to support them; but at the close of day we perceived them haul to windward. I sent Lieutenant Fowler in the Ganges brig to station the country ships† on our lee bow, by which means we were between them and the enemy; and having done so, he returned with some volunteers from the country ships.

We lay in line of battle all night, our men at their quarters; at day-break of the 15th we saw the enemy about three miles to windward laying to. We hoisted our colours, offering him battle if he chose to come down. The enemy's four ships hoisted French colours, the line of battle ship carrying a rear-admiral's flag: the brig was under Batavian colours. At nine *a. m.* finding they would not come down, we formed the order of sailing, and steered our course under an easy sail; the

enemy then filled their sails, and edged towards us. At one *p. m.* finding they proposed to attack and endeavour to cut off our rear, I made the signal to tack and bear down on him, and engage in succession, the Royal George being the leading ship, the Ganges next, and then the Earl Camden; this manœuvre was correctly performed, and we stood towards him under a press of sail; the enemy then formed in a very close line, and opened their fire on the headmost ships, which was not returned by us till we approached him nearer. The Royal George bore the brunt of the action, and got as near the enemy as he would permit him. The Ganges and Earl Camden opened their fire, as soon as their guns could have effect; but before any other ship could get into action, the enemy hauled their wind and stood away to the eastward under all the sail they could set. At two *p. m.* I made the signal for a general chace, and we pursued them till four *p. m.* when, fearing a longer pursuit would carry us too far from the mouth of the Streights, and considering the immense property at stake, I made the signal to tack, and at eight *p. m.* we anchored in a situation to proceed for the entrance of the Streights in the morning.—As long as we could distinguish the enemy, we perceived him steering eastward, under a press of sail. The Royal George had one man killed and another wounded, many shot on her hull, and more in her sails, but few shots touched either the Camden or Ganges, and the fire of the enemy seemed to be ill directed, his shot either falling short or passing over us. Captain Timins carried the Royal George into action in the most gallant manner. In justice to my brother commanders, I must state, that every ship was clear and prepared for action; and as I had communication with almost all of them during the two days we were in presence of the enemy, I found them unanimous in the determined resolutions to defend the valuable property entrusted to their charge, to the last extremity, with a full conviction of the successful event of their exertions; and this spirit was fully seconded by the gallant ardour of all our officers and ships' companies.

From Malacca, I dispatched Lieutenant Fowler, in the Ganges brig, to Pulo Penang, with a Packet from the Select Committee, to the captain of any of his Majesty's ships, soliciting their convoy to this very valuable fleet. On arrival at Malacca, we were informed that the squadron we had engaged was that of Admiral Linois, consisting of the Marengo, of 84 guns; the Belle Poule and Similante, heavy frigates; a corvette of 28, and the Batavian brig William, of 18 guns. The 28th February, in the Streights of Malacca, latitude 4. 30 N. we fell in with his majesty's ships Albion and Sceptre. I was then in

a very poor state of health, and Mr. Lance went on board the Albion, and, by his very able representation to Captain Ferrier, of the great National consequence of the Honorable Company's ships, he was induced to take charge of the fleet. On the 3d of March, I dispatched the Ganges brig, with a letter to the Right Hon. Governor General, giving an account of our action, to be conveyed to the Hon. Court. We arrived at St. Helena the 9th June, under convoy of his Majesty's ships Albion and Sceptre, and sailed the 18th under convoy of his Majesty's ship Plantagenet, with the addition of the Carmarthen, Captain Dobree, and five whalers. Accompanying this, I sent a chart of the entrance of the Straights of Malacca, with the situations of the fleet on the 14th and 15th February, which will, I trust, convey a more distinct idea of the action than any written description. I have the honor to be, Sir, your most obedient humble servant,

NATHANIEL DANCE.

At a Committee of the Patriotic Fund, Held at Lloyd's Coffee House, on this day.

It was resolved, unanimously,

That the circumstance of an enemy's fleet of war, commanded by an admiral in an 84 gun ship, being defeated and chaced by a fleet of merchantmen, protecting an immense property, is highly honorable to the British naval character, and affords a brilliant example to the present and future ages.

Resolved,

That a sword of 100l. value, and a vase of silver of 100l. value, be presented to Commodore Dance, with an appropriate inscription.

Also a sword of 50l. value, with a suitable inscription, to Captain Timins, and the rest of the commanders of the fleet.

Also a vase of 100l. value to Captain Timins, for the gallant

manner in which he led the action, and placed the Royal George alongside the French Admiral's ship, the Marengo, of 84 guns.

Also a sword of 50*l.* value to Lieutenant Fowler, of the Royal Navy, for his services to Commodore Dance, during the two days the enemy were in sight.

It was officially made known to the foregoing gentlemen, by the following handsome circular letter, signed by the secretary:

To Captain

Commander of the

The Court of Directors of the East India Company, having taken into consideration a letter from Captain Dance, containing the particulars of an engagement with a fleet of the Company's ships, under the orders of Captain Dance, and a French squadron commanded by Admiral Linois, in the China Seas, I have the pleasure to acquaint you, that being impressed with the gallantry and good conduct evinced by you on that occasion, in which the bravery and undaunted intrepidity of British seamen were eminently conspicuous, the

Court have resolved to present you with the sum of (see the two foregoing pages,) and a piece of plate of the value of (see as before) in testimony of the sense they entertain of your conduct on the above occasion.

I have likewise to state, that the Court have allowed the officers and seamen on board your ship the undermentioned gratuities, as a mark of their approbation of their conduct, viz.

Commodore Sir Nathaniel Dance, after refusing a baronetcy, was made a knight, August 21, 1804.

PREPARATORY INSTRUCTIONS

To Persons who may be nominated Cadets in the service of the Honorable East India Company.

The following information being printed for the guidance of such persons who may be nominated Cadets in the service of the Honorable United East India Company, they are desired to peruse the same attentively, and obtain the extract from the parish register of their birth or baptism, certified agreeably to the forms herein prescribed, previous to their attending at the East India House, to be approved of by the committee of shipping, as, in the event of their certificates not being conformable, they cannot be admitted until they are completed, and the Cadet will experience much delay and inconvenience therefrom.

AT A COURT OF DIRECTORS,

Held on Wednesday, the 9th August, 1809.

Resolved,

That any person who shall in future be nominated to a situation, either civil or military, in the service of this company, and who shall have obtained such nominations in

consequence of purchase, or agreement to purchase, or of any corrupt practice whatever, either direct or indirect, by himself or by any other person, with or without his privity, shall be rejected from the service of the company, and ordered back to England, if he shall have proceeded to India before a discovery of such corrupt practice be made: and if such situation shall have been so corruptly procured by himself, or with his privity, he shall be rendered incapable of holding that, or any other situation whatever, in the said service. Provided always, that if a fair disclosure of any corrupt transaction or practice, of the nature before described, wherein any Director has been concerned, shall be voluntarily made, by the party or parties engaged in the same with such Director, the appointment thereby procured shall be confirmed by the court.

AT A COURT OF DIRECTORS,

Held on Wednesday, the 7th December, 1808.

Resolved,

That the age of Fifteen, at which period young Men have hitherto been eligible for Appointments as Cadets for the Infantry and Cavalry in the Company's service in India, is too early an Age; and therefore in future, the Age of Sixteen years, be the earliest period at which Cadets for those Corps be appointed.

The certificates required to be produced by the Act of Parliament, of the 33d of his present Majesty George III. and the Court's several resolutions, are as follow, viz.

1st. An extract from the register of the parish wherein the Cadet was born or christened, signed by the resident Clergyman, and countersigned by the Churchwardens.

2d. A certificate from the father, mother, or nearest of kin to the Cadet, (or his guardian in the event of their death) agreeably to the following form. This must be annexed to the above extract.

"I do hereby certify, that the foregoing extract from the register of Baptisms of the Parish of   in the County of   contains the Date of the Birth of my Son   who is the bearer of this, and nominated a Cadet on the   Establishment, by   Esq

and I do further declare, that I received the said appointment for my son gratuitously, and that, no money or other valuable consideration has been or is to be paid, either directly or indirectly, for the same; and that I will not pay or cause to be paid, either by myself, by my son, or by the hands of, any other person, any pecuniary or valuable consideration whatsoever, to any person or persons who have interested themselves in procuring the said nomination for my Son from the Director above mentioned.

"Witness my hand, this day of in the year of our Lord,

3. A letter from the Cadet's friend, who actually interests himself in procuring the nomination from the Director, certifying to the following effect, viz.

To the Honorable Court of Directors of the United East India Company.

"*Gentlemen,*

"I do hereby declare, upon my honor, that I received the nomination of a Cadet for the (Infantry or Cavalry) from Esq. gratuitously, and that I have given it gratuitously to Mr. with whose family and connections I am well acquainted.

"I am, Gentlemen,
"Your most obedient Servant."

Unless the whole of the above papers are delivered in by the Cadet he will not be passed.

In the event of no parish register existing or to be found, the before mentioned Act of Parliament provides as follows, viz.

"That if no such register can be found, an affidavit of that circumstance shall be made by the party himself, with his information and belief, that his age is not under Fifteen Years, and doth not exceed Twenty-two Years."

The following is the form of the affidavit to be made by the Cadet, and sworn to before a Magistrate, viz.

"I. C. D. presented for the appointment of Cadet by Esq. do make oath and swear, that I have caused Search to be made for a Parish Register, whereby to ascertain my age, but am unable to produce the same; there being none to be found; and further I make oath and swear, that from the

information of my Parents and other Relations, which information I verily believe to be true, that I was born in the Parish of in the County of on in the year and that I am not at this time under the age of Fifteen, or above Twenty-two Years.

"Sworn before me, this Day of" "Witness my hand, this Day of in the year of our Lord. "D. C."

The father, mother, or nearest of kin, must then add their certificate as to the truth of the affidavit, nearly similar to the one ordered to be annexed to the extract from the parish register; and the Friend who obtains the nomination for the Cadet, must likewise furnish him with the declaration before-mentioned.

It is here necessary to remark, in consequence of several persons having been detected in attempting to pass under false certificates, when they have either been under or above the age prescribed by the Act of Parliament, that all persons who may in future be nominated as Cadets, if there is any cause to suspect their certificate has been forged, or alteration made therein, or collusion made use of in obtaining the same, they will on detection, be immediately dismissed the company's service, and rendered for ever ineligible to hold any situation or employment in the Company's Civil, Military, or Marine Service, either Abroad or at Home.

Where the person to be appointed a Cadet has held a commission in his Majesty's service, for the term of one year at least, or in the militia, or fencible corps when embodied, and shall have joined his regiment, and been called into actual service, or shall have been in the company of Cadets of the Royal Regiment of Artillery, such person is eligible for the appointment of Cadet in the Company's service, provided his age does not exceed twenty-five years, of which circumstance he must, nevertheless, produce the several certificates before-mentioned, as also his commission, together with a certificate from the War Office, or commanding officer of his regiment of his having actually joined, and done duty with the regiment for the full term of one year or upwards; and that he was neither dismissed or resigned his regiment in consequence of any misconduct.

Upon the Cadet being approved of by the Court, he will be furnished with a card of necessaries for his equipment, and the Court's regulations as to the sums to be paid for his accommodation on board ship; and the Court expect, that
